**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Acknowledgement*

1. Applicant's Amendment and Response to Paper No.8 has been entered and made of record. Claims 28-38 have been cancelled and claims 88-92 have been added. Therefore, claims 39-57 and 88-92 are pending.

### *Priority*

2. This application appears to be a division of Application No. 08/572,392, filed December 14, 1995. A later application for a distinct or independent invention, carved out of a pending application and disclosing and claiming only subject matter disclosed in an earlier or parent application is known as a divisional application or "division." The divisional application should set forth only that portion of the earlier disclosure which is germane to the invention as claimed in the divisional application.

### *Claim Rejections - 35 USC § 102*

3. Claims **39-57 & 88-92** are rejected under 35 U.S.C. 102(e) as being anticipated by Fazan et al. (US 5,392,189).

Fazan et al discloses an electrode comprising (Fig.15B):

a contact (65) formed in an insulative layer (40 & 83); a diffusion barrier layer (75) overlying said contact, said insulative layer surrounding a sidewall of said diffusion barrier portion; an oxidation resistant layer (85) overlying said diffusion barrier layer (75), extending above and below an upper surface of insulative layer, and including a recess, said diffusion barrier portion configured to inhibit diffusion of atoms between said contact and said oxidation resistant portion; dielectric layer (90) overlying said

oxidation resistant layer; a cell plate electrode (91) overlying said dielectric layer; and a reducing contact resistance layer (67) interposed between said contact (65) and said diffusion barrier layer (75), said reducing contact resistance portion configured to reduce a contact resistance between said contact and said diffusion barrier portion, wherein contact, diffusion barrier, oxidation resistance, and reducing contact resistance layer consist of polysilicon, tantalum, platinum, and titanium silicide.

### ***Response to Arguments***

4. Applicant's arguments with respect to claims 39-57 & 88-92 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donghee Kang whose telephone number is 703-305-9147. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Thomas can be reached on 703-308-2772.
